

# TMLIRP Loss Prevention Upcoming Training

Training and education are essential to the reduction and prevention of accidents and incidents. The Risk Pool's training programs address trends and significant exposures affecting our members. These programs are provided at no additional costs to members. Training is available through various methods including onsite training, online learning, webinars, and a media library. All these resources can be reviewed on our website at [www.tmlirp.org](http://www.tmlirp.org) (works best with Google Chrome).

One of the most important aspects of the Risk Pool's partnership with its members is the frequent offering of onsite training that is hosted by our members. The Risk Pool has three Loss Prevention Training Specialists whose primary responsibility lies with member education. The Risk Pool also uses various contract trainers to assure we address exposures impacting our members.

Below is a listing of upcoming programs. Please refer to our [Events Calendar](#) for specific information related to registering for these programs. The events calendar will also provide information related to the content of each specific program.

---

# TMLIRP Loss Prevention Upcoming Training

TMLIRP onsite training is scheduled at least 60 days in advance in most cases. Please verify the logistics of all training on the Events Calendar. If you have questions about upcoming training or have a specific request for training, please contact your assigned Loss Prevention Representative. A map of assigned counties for Loss Prevention Representatives can be viewed at <https://www.tmlirp.org/contact-us/>. (Link will not work with Internet Explorer. Best to use Chrome.)
