

Cyber Services Program

Incident Response Plan Review

Build Confidence and Readiness for a Cyber Event

Purpose of the Service

An effective Incident Response Plan (IRP) helps you act quickly and decisively when a cyber event occurs. TML Risk Pool's Incident Response Plan Review service helps your organization strengthen or develop a practical IRP that reflects your operations, clarifies roles, and ensures timely notification of key parties—including TML Risk Pool's breach response team.

What's Included

- A 60–90 minute consultation (virtual or in-person) with leadership and technical staff
- Review of your current Incident Response Plan (if available)
- Assistance with developing a plan from scratch using the TML Risk Pool's IRP template
- Discussion of Texas-specific breach notification requirements
- Guidance on when and how to notify the TML Risk Pool for claims response and legal assistance

What You'll Receive

- Written feedback on your current plan or a copy of the TML Risk Pool's IRP template
- List of critical response actions and contact numbers for Texas public organizations
- Steps to include the TML Risk Pool in your response process for immediate breach support

Who Should Participate

- City Managers, IT Leads, Risk Managers, and anyone responsible for cyber incident handling
- Staff responsible for communicating with TML Risk Pool and regulatory entities during incidents

Time Commitment

- Approximately 60–90 minutes
- Scheduled at your convenience with TML Risk Pool Cyber Services staff

Cost

- This service is provided at **no cost** for TML Risk Pool Members with cyber insurance from the Risk Pool.
