Cyber Services Program
Information Security Policy Review/Development
Practical Support for Building or Enhancing Your Cybersecurity Program

♡ Purpose of the Service

Every strong cybersecurity program begins with clear, well-defined policies. TML Risk Pool's Information Security Policy Review and Development service helps your organization review, strengthen, or create foundational cybersecurity policies tailored to your size and capabilities. Whether you need help updating existing documents or are starting from scratch, we're here to support you.

✻ What's Included

- A 60–90 minute consultation (virtual or in-person) with your key staff
- Review of existing information security policies or practices
- Guidance on gaps or areas needing improvement
- Introduction to the TML Risk Pool Policy Starter Kit (13 customizable templates)
- Assistance tailoring sample policies to match your operational environment

≡ What You'll Receive

- Feedback on current documentation and recommendations for updates
- Access to our Information Security Policy Starter Kit
- Ongoing support as you develop or formalize your program

👥 Who Should Participate

- City Managers, Department Heads, IT Leads, or Risk Managers
- Anyone responsible for policy development, IT governance, or compliance

⏱ Time Commitment

- Approximately 60–90 minutes
- Scheduled at your convenience with TML Risk Pool Cyber Services staff

$ Cost

- This service is provided at **no cost** for TML Risk Pool Members with cyber insurance from the Risk Pool.
