

Cyber Services Program

Table-Top Cybersecurity Exercises

Practice Your Cyber Response Before It's Urgent

Purpose of the Service

A Table-Top Exercise (TTX) provides your organization with a safe environment to practice responding to a realistic cyber incident. TML Risk Pool partners with the Cybersecurity and Infrastructure Security Agency (CISA) to deliver regional sessions across Texas featuring escalating scenarios relevant to public-sector entities. Our Cyber Squad team facilitates local discussions, helps clarify responsibilities, and introduces best practices.

What's Included

- A professionally facilitated 3–4 hour regional TTX in partnership with CISA (9:00 AM – 12:00 Noon typical)
- Realistic public-sector cyber incident scenarios with decision-making injects
- Support and insights from TML Risk Pool Cyber Squad staff throughout the session
- Optional: A tailored TTX for a single member (2–3 hours), available virtually or in person

What You'll Receive

- A practical, non-technical discussion focused on your team's response
- Feedback and observations from TML Risk Pool and CISA facilitators
- Increased readiness to respond to ransomware, business email compromise, and other threats

Who Should Participate

- City Managers, Emergency Managers, IT Leads, Department Heads, HR, Legal, and Finance
- Ideal for both technical and non-technical staff involved in incident response or continuity planning

Time Commitment

- Regional TTX: 3–4 hours (typically 9:00 AM to 12:00 Noon)
- Custom TTX for your entity: 2–3 hours, scheduled at your convenience

Cost

- This service is provided at **no cost** for TML Risk Pool Members with cyber insurance from the Risk Pool.
